“Arab Health 2022 was the busiest week in the past 2 years. We had so many business interests and opportunities. We believe this event has triggered the true beginning of post pandemic era for the world and industry.”

Kentaro Suzuki
General Manager, Canon

“I am shocked, surprised, amazed and yet have no words on what the experience of attending Arab Health 2022 has been. It has provided all the opportunities of discovering and exploring the future of healthcare.”

Aleem Merchant
Founder and Director, Synapse

“I have been attending the conference since 2006 and 2022 has been really fantastic. In view of the Covid situation too, Arab Health has managed to get a good audience and a great selection of experienced speakers who are making a history in the industry.”

Dr. Ramesh Pilluatla
Specialist Radiologist
NMC Specialty Hospital
